PRODUCT CATALOG 2025

Starline is a leading brand and comprehensive provider of PPE with a wide range of products that cover all aspects of safety and protection located in Turkey. We offer a diverse selection of products, ranging from head to toe protection.

We produce safety shoes and PU boots that are designed to protect the feet and ankles of workers in various industries. The latest technology German DESMA machines are used during the production process along with use high-quality BASF raw materials to ensure durable and long-lasting final product. Almost all of our products are certificated by SATRA, including safety shoes and PU boots produced in our facility.

In addition to high-quality safety shoe and PU Boot production, we also boast a large stock capacity thanks to our 30,000 square meter closed warehouse. This warehouse serves as an operation center, where allows us to keep a significant amount of stock on hand at all times, and that helps us to quickly and efficiently meet the needs of our business partners in a timely and efficient manner.

As Starline, we are committed to providing our customers with the highest-quality PPE products. We have a well-established distribution network that empowers to export our products to over 25 countries worldwide. This extensive reach allows us to provide safety and protection to individuals in various industries and markets, no matter where they are located. We take pride in being a global supplier of PPE that people can trust, and we are committed to continuing to expand our reach and provide safety for people all around the world.

Encircle spills with booms. It begins to absorb oil and petroleum-based (repels water) liquids in water.

As spills are sucked in, the boom will submerge and will not leak.

Thanks to its hydrophobic (water repellent) feature, the boom will not sink even when fully saturated.
